Bacteria			
Acinetobacter baumannii	1 min	Virus - Enveloped	
Bacillus cereus	5 mins	Avian Flu H5N1	5 mins
Bacillus subtilis	5 mins	Bovine viral diarrhea virus	5 mins
Burkholderia cenocepacia	1 min	Influenza A H1N1 (Swine Flu)	5 mins
Burkholderia gladioli	1 min	Hepatitis C	5 mins
Burkholderia multivorans	1 min	Herpes EHV1	1 min
Campylobacter jejuni	5 mins	Herpes EHV4	1 min
Corynebacterium	5 mins	Human Immunodeficiency Virus (HIV)	5 mins
Enterobacter aerogenes	5 mins	Influenza A H1N1 (Swine Flu)	5 mins
Enterococcus hirae	45 seconds	Middle East respiratory syndrome coronavirus (MERS-CoV)	5 mins
Enterococcus faecium	1 min	Norovirus	5 mins
Escherichia coli (E. coli)	30 seconds	SARS and Coronavirus Covid-19	5 mins
Klebsiella pneumoniae NDM-1	1 min		
Legionella pneumophila	1 min	Yeast, Mould and Fungus	
Listeria monocytogene	30 seconds	Aspergillus brasiliensis (niger)	5 mins
Methicillin Resistant Staphylococcus aureus (MRSA)	1 min	Aspergillus fumigatus	5 mins
Neisseria	5 mins	Candida albicans	5 mins
Proteus vulgaris	1 min	Penicillium	5 mins
Pseudomonas aeruginosa	45 seconds	Trichophyton sp (Athletes foot, Tinea)	5 mins
Rhodococcus equi	1 min		
Salmonella typhimurium	30 seconds	Virus – Non-Enveloped	
Salmonella enteritidis	1 min	Parvovirus	30 mins
Salmonella choleraesuis	1 min	Poliovirus	5 mins
Salmonella enteritidis	1 min	Rotavirus	5 mins
Salmonella typhimurium	1 min		
Staphylococcus aureus (MRSA)	45 seconds	Tuberculosis - TB	
Streptococcus equi	1 min	Mycobacterium terrae (TB) – Tested at 50g soiling	5 mins
Stenotrophomonas maltophilia	1 min	Mycobacterium Avium complex	5 mins
Vancomycin-Resistant Enterococcus (VRE)	1 min		
		Spores	
		Clostridium difficile (C. Diff)	1 min
		Clostridium perfringens	5 mins
